OBJECTIVE

My professional goal is to make systems that help or benefit the community.

SKILLS

I can work in team; I usually have the role of leader when the situation merits it. I give a lot of ideas to complete the job.

EXPERIENCE

DEVELOPER AT UNAM
2020 - PRESENT

Developer in the Academic Computing Services Unit at the Faculty of Engineering of the National Autonomous University of Mexico.
I work the development of web systems both in the frontend and backend. I attend and identify the requirements of each project according to the needs of the user.

FREELANCE DEVELOPER
2021 - PRESENT

I develop some pages and systems to practice some tools such as frameworks.

EDUCATION

COMPUTER ENGINEER IN 2023

Faculty of Engineering of the National Autonomous University of Mexico.
As part of my development as a computer engineer, I learned to program, learned to analyze requirements and solve problems, learned to design user interfaces and learned to design databases to implement them in systems.

I also participated and accredited a CISCO degree as part of their network introduction and management program.
